Summary

ServiceNow Developer with hands-on experience across **ITSM, HRSD, and CSM** modules. **5x certified** (CAD, CSA, ITSM, CSM, HRSD) with expertise in **scripting, integrations, and GenAI** use cases. Skilled in building custom applications, workflows, and AI-powered solutions that enhance customer service operations

Education

BML Munjal University , B.Tech in Computer Science and Engineering	Aug 2020 – Aug 2024
Aditya Junior College , Intermediate (Maths, Physics, Chemistry)	May 2017 – Mar 2019
Sri Chaitanya Techno School , Secondary School (Class X)	May 2016 – Mar 2017

Experience

Analyst, Deloitte Consulting, USI - Hyderabad Jan 2026 – Present

- Currently contributing to the **3rd** project by providing support for **ServiceNow–Workday Integration**
- Contributing to Deloitte’s firm initiative **WeaveX**, focused on developing intelligent **AI Agents** to automate enterprise workflows and enhance user productivity using ServiceNow’s AI capabilities.
- Currently working on multiple ServiceNow projects across **ITSM** and **HRSD** modules, including enhancement and end-to-end implementation engagements for enterprise clients.
- In the **1st** enhancement project, worked extensively on the ITSM module by configuring and enhancing **Flow Designer, Workflow Editor, and Service Catalog Items** to streamline business processes and improve operational efficiency.
- Collaborated closely with client stakeholders and cross-functional teams during the Wolfspeed project to gather enhancement requirements, provide production support, and ensure smooth delivery of ServiceNow solutions.
- Actively resolved client-raised **defects, incidents, and enhancement tasks** by performing root cause analysis and ensuring timely resolution aligned with SLA expectations.
- In the **2nd** implementation project, currently involved in implementing the **Employee Relations** module from scratch within the HRSD platform, including HR Services configuration, case management workflows, and process automation using Flow Designer.
- Worked on designing scalable HR solutions and improving employee experience by automating HR operations and streamlining employee case handling processes.
- Contributed to Deloitte’s Firm Initiative **FastForward - FF2** for **Knowledge 26**, focused on building an employee onboarding portal using the HRSD module and **Moveworks Bot** integration.
- Enhanced the employee portal experience by replacing Virtual Agent with Moveworks Bot and managing knowledge articles related to company policies, leave management, onboarding, and employee wellbeing.

Software Engineer, Work4Flow - Remote Oct 2025 – Dec 2025

- Currently developing an advanced ServiceNow application named **Confidential until released**, a successor to the **Now Assist Readiness Evaluation (NARE)** app, which was acquired by ServiceNow and published on the ServiceNow Store.
- Designed and implemented over nine dynamic page variants using **UI Builder**, incorporating metrics, client state parameters, and data broker scripts for enhanced interactivity and performance for the application.
- Developed multiple **Script Includes** to retrieve real-time data from the instance backend and render it seamlessly on client-side interfaces.
- Configured and managed **Scheduled Jobs** to execute Script Includes automatically every day at 9 AM PST or as per client-specific requirements.
- Built a comprehensive **Guided Setup** experience to help users easily understand and configure the application post-installation.

Graduate Engineer Trainee, HCL Tech – Chennai, India

Oct 2024 – Aug 2025

- Worked extensively on the **Informa Project**, contributing to ServiceNow customization and automation efforts.
- Configured workflows using **Flow Designer and Workflow Editor** to streamline business processes.
- Designed and implemented **Service Catalog items, including forms, variables, and variable sets**.
- Developed **Custom Scripts (Client Scripts, Business Rules, Script Includes)** to extend ServiceNow functionalities.
- Implemented **AI-powered solutions using Now Assist Skill Kit**, automating request handling and knowledge responses, which improved efficiency and earned strong appreciation from stakeholders and clients.

Software Developer Intern, LI-Mat Soft Solutions – Bangalore, India

Jan 2024 – June 2024

- Developed a **dynamic tourism website** tailored to client requirements, covering both frontend and backend development.
- Designed user-friendly interfaces using **React** and a comprehensive admin panel for managing content, bookings, and user data.
- Integrated RESTful APIs for creating and managing tour packages, storing data securely in **MongoDB**.
- Implemented core features such as Gallery, Packages, Sightseeing, User Profile, and Booking modules to enhance user experience and engagement.

Certifications

- **Certified Application Developer (CAD)**, ServiceNow
- **Certified System Administrator (CSA)**, ServiceNow
- **Certified Implementation Specialist – ITSM (CIS-ITSM)**, ServiceNow
- **Certified Implementation Specialist – HRSD (CIS-HRSD)**, ServiceNow
- **Certified Implementation Specialist – CSM (CIS-CSM)**, ServiceNow
- **Micro-Certifications:** Automated Test Framework (ATF), Agentic AI Executive, Configure the CMDB, Predictive Intelligence, Now Assist, Virtual Agent, Performance Analytics

Personal Projects Within ServiceNow Ecosystem

FlowMigrator – AI-Powered Workflow Migration Tool [\[Link\]](#)

- Built a vibe-coded AI-powered ServiceNow solution using **Claude AI** to automate migration of **Legacy Workflows** into **Flow Designer**, for Deloitte's ServiceNow Innovation Challenge.
- Developed end-to-end functionality to connect with ServiceNow instances, browse and analyze legacy workflows, and preview complete workflow activity breakdowns before migration.
- Implemented AI-driven mapping logic to convert legacy workflow activities into equivalent **Flow Designer actions** with automated field population and one-click deployment capabilities.
- Designed the solution for large-scale enterprise workflow migration use cases, significantly reducing manual recreation effort and improving migration efficiency for ServiceNow teams.

ServiceNow Quick Launch Chrome Extension [\[Link\]](#)

- Built a **Chrome extension** for quick navigation across **ServiceNow tables**.
- Integrated with **ServiceNow instance URLs** for instant access, reducing navigation time by ~80%.
- Improved **productivity** by enabling faster table access and minimizing manual searches.
- Tech stack: **JavaScript, HTML, CSS, Chrome Developer Tools**.

GenAI Summarization Tool using Now Assist Skill Kit

- Built a **GenAI Skill** to summarize **incidents** and **change request** records using **Now Assist Skill Kit**.
- Integrated summaries into **Agent Workspace** to enhance visibility and reduce resolution time.

Skills

ITSM: Client Script, Business Rules, Script Include, Fix Scripting, Background Scripts, Integration, ACL, SLA, Incident Management, Change Management, Scoped Applications, Integrations, UI Policies, UI Actions, Flow Designer, Service Requests, Catalog Management, Transform Maps, Workflow, UI Builder, Virtual Agent, AI Agent Studio, Now Assist, Performance Analytics, Agile Development - Stories

HRSD: Case Management, COEs, Profile Management, HR Services Configuration

CSM: Case Workflows, Account and Contact Management

GEN AI: AI Agent Studio, Now Assist Skill Kit

Others: Communication Skills, Team Player, Adaptable

Technologies

Programming: Java, Python

Web Development: JavaScript, HTML, Tailwind CSS, Glide API, JSON, Jelly Scripting, XML, Angular JS
